The independent states which border on South Africa and Namibia are in the front line of the struggle against apartheid. In retaliation for their support for the freedom struggle, the Pretoria regime has long enforced its own punitive sanctions against the front line states — invading their territories, murdering their

citizens and destroying their economies.

AA ENTERPRISES is importing a range of products from the front line states — in each catalogue we hope to add more. Keep in touch with us for the latest alternatives to apartheid produce from South Africa and Namibia.
