

Why Watch the Springboks?

BECAUSE

You enjoy the game?

What happens in South Africa is not your concern?

You support racialism?

Everybody has the right to enjoy the game but in South Africa everyone does not.

Only Whites can represent their country in any team sport.

Africans, Indians and Coloureds—81% of the population—are excluded on grounds of skin colour, however good they may be.

They have separate and largely inferior facilities for training, playing and watching sport.

By inviting racist teams: by watching racist sport—we are telling the South Africans—it's OK!

We are helping to sustain APARTHEID.

What happens in South Africa is very much our concern:

We are South Africa's largest trading partner.

We own over 64% of the total foreign investment in South Africa.

We maintain sporting, diplomatic and cultural links with White South Africa.

By this collaboration we are sustaining APARTHEID.

APARTHEID means—ONLY WHITES have the right—
to vote,

to negotiate or strike for better conditions and higher wages,

to fully educate their children,

to live a family life—wherever they can earn their livelihood,

to move around their country freely.

AFRICANS, INDIANS and COLOUREDS do not have these rights. In fact, they have no voice in determining their own destiny.

You support racialism?

Well—think again!

Vorster, South Africa's Prime Minister, supported Hitler's racism during the last war which brought about the death of millions, and misery and loss for millions more.

APARTHEID IS NOT A GAME.

South Africa has thousands of political prisoners.

Many more are detained under the "law" (Terrorism Act)—held indefinitely, in solitary confinement, without access to friends or family. During this past year alone, five detainees are known to have "died".

THIS IS WHAT RACIALISM MEANS.

**THIS IS WHAT YOU ARE SUPPORTING
BY ATTENDING THE GAME.**

Why join the Anti-Apartheid Movement ?

BECAUSE THE ANTI-APARTHEID MOVEMENT

- ☆ keeps you informed of the facts of the situation in Southern Africa.
- ☆ publicises the background and details of Britain's support for apartheid South Africa and for the other racist regimes in Southern Africa.
- ☆ tells you how we, in this country, can support the struggle for liberation throughout Southern Africa, in South Africa, Rhodesia (Zimbabwe), S.W. Africa (Namibia), Mozambique, Angola and Guinea Bissau.

The AAM does this by:

- ☆ campaigning through the trade union and co-operative movements, all political parties, the churches, youth and student groups, women's organisations and the public generally, calling for an end to all collaboration with the racist regimes of Southern Africa.
- ☆ publishing a monthly newspaper ANTI-APARTHEID NEWS, describing developments in Southern Africa, their effect upon Britain and anti-apartheid activity throughout the world.
- ☆ lobbying the Government directly.
- ☆ pressing for economic sanctions against South Africa—without which sanctions against Rhodesia cannot succeed—and the boycott of South African goods.
- ☆ keeping a vigilant eye on the maintenance of the arms embargo and pressing for its total implementation.
- ☆ calling for an end to sporting and cultural links with White South Africa and a ban on emigration to South Africa.
- ☆ urging an end to NATO association with Portuguese African policy and for majority rule in Angola, Mozambique, Guinea Bissau.

The AAM has only members subscriptions and private donations to draw on for financial support. If you can send us a donation, please do—

and join the Movement.
