

SOUTH AFRICA

*74 killed at Sharpeville and Langa
And now 27 new killings at Pondoland*

THE WHOLE WORLD IS ANGRY

THE BOYCOTT IS TAKING EFFECT : Mr. Schoeman, South African Minister of Transport, said: "In almost every country there is a boycott movement. We are already feeling the effect of this . . . if these boycott movements gain momentum and get more support, South Africa could be placed in a bad way economically."

YOU CAN HELP TO DESTROY APARTHEID

1. Boycott South African goods yourself.
2. Get your canteens to boycott South African goods.
3. Campaign through political, co-operative and other organisations for :
 - an end to all Emergency Regulations in South Africa and for the release of detainees.
 - economic sanctions against the South African Government through the United Nations.
 - the return of South West Africa to United Nations Administration.
4. Raise money for the Defence & Aid Fund and for activities against Apartheid.
