

DON'T BUY SOUTH AFRICAN GOODS

DON'T BUY PRODUCTS OF APARTHEID - WHY?

Apartheid means power, privilege and wealth for the white minority. It means poverty, humiliation and exploitation for the black majority. Above all, it means that the black majority are denied all basic political and human rights in their own country.

The racist state has caused the death of 2,200 people during the last year.

25,000 people have been detained without trial - many of whom are children.

On many Outspan orange, Cape apple, wheat and peach farms and in vineyards, black workers are paid between \$9.00 and \$14.00 per month. Very few black workers earn as much as \$30.00 per month.

Buying South African products helps to maintain the apartheid system. The people of South Africa and Namibia ask for your support in the boycott campaign.
